

CHUYỂN ĐỔI "XANH" CHO TRÁI ĐẤT "XANH"

Go Green To Make Our Globe Clean

WELCOME TO

TAIWAN PAVILION

Hall A1, A2, B2

Hall B2, BK3-1

Họp báo | Press Conference
2 July 14:00-15:00

Hội thảo Chuyên đề | Theme Presentation

3 July 11:00-12:00 Công nghệ tự động hóa
14:00-15:00 Cắt gọt kim loại
4 July 11:00-12:00 Cơ khí linh kiện
14:00-15:00 Dập tạo hình kim loại

Đài Loan, nổi tiếng với các tiêu chuẩn về chất lượng, hiệu quả và độ tin cậy, sẵn sàng hỗ trợ Việt Nam trên hành trình hướng tới sản xuất ít cacbon hơn và bền vững hơn. **63 doanh nghiệp hàng đầu của Đài Loan** sẽ tham gia Triển lãm MTA Việt Nam, trưng bày các giải pháp robot, tự động hóa, máy móc và công cụ có khả năng thực hiện công việc với mức độ chính xác rất cao. Nhờ ghé thăm gian hàng của **Taiwan Smart Machinery tại BK3-1** để cập nhật những xu hướng công nghệ mới nhất và các giải pháp môi trường vượt trội. Hãy đánh dấu lịch tham dự buổi **họp báo vào ngày 2 tháng 7**, nơi năm nhà sản xuất của Đài Loan sẽ tiết lộ những phát kiến mới nhất về các công cụ thân thiện với môi trường, đặc biệt là những **phát kiến liên quan tới động cơ xe điện**.

Taiwan Exhibitors

Press Conference July 2nd Tue. 14:00-15:00

HIWIN HIWIN is a leading global provider of motion control and system technology, specializing in precision module products such as the Datorker Strain Wave Gear, Torque Motor Rotary Table, and Industrial Robots. With 14 subsidiaries worldwide and over 200 distributors, HIWIN is dedicated to serving customers across various industries. In line with the growing emphasis on environmental, social, and governance (ESG) practices, HIWIN has introduced "Green Solutions" to showcase the boundless potential of innovation and intelligent energy saving. The HIWIN Torque Motor Rotary Table stands out for its exceptional accuracy and low maintenance requirements, as it eliminates mechanical wear and backlash issues. It is ideally suited for high-end 4-axis and 5-axis machines and finds widespread applications in the automotive, aerospace, and medical sectors.

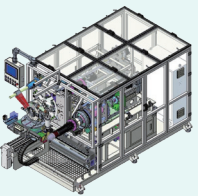

SUPER AIR SUPER AIR, established in 1988 and has been committed to energy-saving of compressed air system for 35 years. Super Air provides energy-saving solutions for air compressor systems. Main product is a made in Taiwan energy-saving drain, Super Trap. In addition to being affirmed and loved by many well-known companies in Taiwan, it also exported to 17 countries.

CHINFONG CHIN FONG is the biggest manufacturer of mechanical power press in Taiwan. Founded in 1948, Chin Fong possesses a robust team for research, development, manufacturing, and service. The products include C-Frame/Straight Side press, High Speed press, specialized Knuckle Press, Transfer Press, Servo.Press, Tandem Line and Servo Press, with capacity from 25 tons~3200 tons. The specialized H-frame Double Crank press (GTX) is capable of making battery cases. It can undergo sheet metal stamping processes (blanking, stretching, bending, and localized forming processes) and cold forging processes (flattening/forging rough processes, extrusion, drawing, and imprinting forming processes), achieving nearly net-shaped forging compound processing of sheet materials.

GMW GMW, established in 1975, is a professional motor winding machine manufacturer committed to providing high-standard stator automatic production equipment, for customers to produce high efficiency and quality motor. GMW has cooperated with numbers of worldwide well-known EV Powertrain System provider to establish their traction motor stator production lines, which successfully raises the productivity and yield rate to mass production. By utilizing GMW's motor winding process equipment, the customers can achieve optimized performance and value of motors.

SYNTEC SYNTEC focuses on the field of CNC machine tools. Innovative products such as the lathe & milling machine provide value-added applications and a complete after-sales service. Product lines have extended to high-end main shaft servo integration, linear motor and direct drive motor. Responding to the trend of industrial automation. SYNTEC expects to add value to automated production lines by providing integrated solutions to implement the concept of "Industrial 4.0."

Theme Presentation / Hội thảo Chuyên đề

July 3rd Wed.

Automation / Tự động hóa | 11:00 – 12:00

HIWIN

Torque Motor Rotary Table – Drive your Future Further
presented by Mr. Richard Chen

SYNTEC

Intelligence CNC Controllers and Digital Components in the Metal Processing Industry presented by Mr. Andy Ngo

Metal Cutting / Cắt gọt kim loại | 14:00 – 15:00

Presenter:
Mr. NGUYEN DUC HIEU
Country manager of Taiwan Combitech Co., Ltd.

Taiwan's Metal cutting machinery: Analysis of Advantage

- Nider TAKISAWA** TAIWAN TAKISAWA TECHNOLOGY CO., LTD. - Horizontal CNC Lathe
- MEGA** MEGA MACHINE CO., LTD. - NC Thread Rolling Machine
- HONOR** HONOR SEIKI CO., LTD. - CNC Vertical Turning Center
- KienTai** KENTAI MACHINERY CO., LTD. - High Speed CNC Sawing

July 4th Thurs.

Components / Các thành phần | 11:00 – 12:00

Super Trap, Your Best Condensate Solution for Compressed Air System
presented by Mr. Richard Chen

VPIC

Technological Integration in Taiwanese Machine Tool Components
presented by Mr. LAI Y CHIU
(Special Assistant to the Chief Executive Officer)

Metal Forming / Tạo hình kim loại | 14:00 – 15:00

Presenter:
Mr. NGUYEN DUC HIEU
Country manager of Taiwan Combitech Co., Ltd.

Long life products from experienced manufacturers

- CHINFONG** CHIN FONG MACHINE INDUSTRIAL CO., LTD. - Mechanical Press
- TIAN FENG** TIAN FENG HYDRAULIC CO., LTD. - Servo Hydraulic Press
- YEH CHIUN** YEH CHIUN INDUSTRIAL CO., LTD. - CNC Press Brake
- SUNRISE** SUNRISE FLUID POWER INC. - Multi Function Iron Worker

TAIROA

The Taiwan Intelligent Automation and Robotics Association, a legal entity, has diverse members, including enterprises in automation machinery and equipment, complete robots, system integration, related components, information communications and software programs, and has established a "System Integration Alliance" to expand overseas intelligent automation services and improve services value, effectively assisting digital transformation and smart factory construction.

With over 30 year's experience in machine tool industry and over 15 year's experience exports products to many countries around the world, Taiwan Combitech supply high quality products and after sales services. Technician team in Viet Nam are often trained by experts from Taiwan in order to provides customers technical services after sale efficiently and quickly. In Viet Nam, Combitech provides many machineries project, customers can visit some companies which using our products in Viet Nam or visit the manufacturers in Tai Chung, Taiwan before deciding invest in products.
